

Cautionary Note

This report contains information about our sustainability and social impact goals, targets, initiatives, commitments, and activities. Unless otherwise noted, this report covers initiatives and performance metrics associated with our operations for our 2022 fiscal year, spanning August 2, 2021 through July 31, 2022. These efforts involve certain risks and uncertainties, such as changes in our business (i.e. acquisitions, divestitures, or new manufacturing or distribution locations), the standards by which achievement is measured, the assumptions underlying a particular goal, and our ability to accurately report particular information. Actual results could differ materially from our stated goals or the results we expect. Changing circumstances, including evolving expectations for sustainability and social impact generally, or to specific focus areas or changes in standards or the way progress or achievement is measured, may lead to adjustments in, or the discontinuation of, our pursuit of, certain goals, commitments or initiatives.

This report does not include details on our financial performance. Details on our financial performance can be found in the investor relations section of our website and in our public filings available through the U.S. Securities and Exchange Commission (SEC). This report may use certain terms that certain third-party entities refer to as "material" in connection with certain sustainability and social impact matters. Used in this context, this term is distinct from, and should not be confused with, the terms "material" and "materiality" as defined by, or construed in accordance with, securities or other laws and regulations. Matters considered material for purposes of this report may not be considered material in the context of our financial statements, reports with the SEC, or our other public statements, and the inclusion of information in this report is not an indication that such information is necessarily material to us in those contexts.

This report has been prepared in reference with the Global Reporting Initiative (GRI) Standards: Core Option. This report also includes some content that addresses comprehensive level GRI disclosures. We have also aligned this report to the general principles of the Sustainability Accounting Standards Board (SASB) for food and beverage companies, and have prepared a limited Task Force on Climate-related Financial Disclosure (TCFD) Index. Our GRI Content Index, and SASB and TCFD disclosures are available in the appendix of this report and on our website. We have engaged with Apex Companies, LLC to provide limited assurance in relation to specific fiscal 2022 environmental and nutrition data. Details on our limited assurance activities are available on our website.

This report includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding our sustainability and social impact goals, targets, initiatives, commitments, and activities as well as our future operations and long-term strategy. These forward looking statements rely on a number of assumptions and estimates that could be inaccurate and which are subject to risks and uncertainties. The factors that could cause our actual results to vary materially from those anticipated or expressed in any forward-looking statement include impacts of factors described in our most recent annual report on Form 10-K and subsequent SEC filings. We disclaim any obligation or intent to update the forwardlooking statements in order to reflect events or circumstances after the date of this report.

SASB Index

The Sustainability Accounting Standards Board (SASB) Standards guide the disclosure of financially material sustainability information by companies to their investors. The Standards identify the environmental, social, and governance (ESG) issues most relevant to financial performance in each industry. Campbell uses the Standard for the Processed Foods industry as guidance for disclosure.
